MOVIE THEATER ONLINE BOOKING

Made by: Nick Merida

WHAT IS IT?

- My system for booking movies online is meant to be a efficient way to get your ticket and not worry about spending time in line when you just want to see your movie.

- This system is meant to be allowing the user to book a movie easily while not having to pay for it right away allowing them to pay for it in person. this is to prevent the selling of tickets off of the market. if the person does not show up it is taken as a sure charge.

KEY USER FEATURES

- User login
- Account registration
- Ease of use
- Book online
- Reserve a seat online to pay in person
